

14 July 59
Phone conversation with Col. Bexfield,
SSPD (Code 131, X 78878). He confirmed
that General Young had stated two weeks
would be the longest period personnel could be
spared for the orientation course. Further, that
one officer (himself?) who had been earmarked for
going to tradeoff course could not go. He wanted
to know when we could get together to discuss
course content - in 30 days?

I advised I must give another course start-
ing Mon. 26 July. After it is finished, must
work on War Plans Course, the 1st priority job
Mr. Baird mentioned in our June meeting; hope
that I can start talking with him in Sept., but
the War Plans Course probably cannot be
given until Nov - Dec. & the orientation for
military personnel will have to follow it.

He asked for any background materials he
could have to study now. I stated I would see
what could be done.
